WORK EXPERIENCE

Ushur

Charlotte, NC

Technical Consultant

January 2024 – Present

- Responsible for technical delivery of Ushur's no code automation platform for 6 Fortune 500 customers in both the healthcare and insurance industries with contracts totaling over \$3 million, including the largest contract in Ushur's book of business
- Advised customers during the implementation phase of contracts to elicit business requirements, implement integrations via RESTful APIs, and design delightful end-user experiences utilizing Ushur's automation and AI capabilities
- Supported the healthcare vertical as a Subject Matter Expert for Durable Medical Equipment Providers where I conducted multiple demos to C-Level executives resulting in over \$500,000 in ARR for the fiscal year 2023
- Developed training materials to support the launch of Ushur's "Ushur Studio" workflow automation builder

Associate Solution Consultant

April 2022 – January 2024

- Drove an initiative to certify customers in Ushur's platform with over 20 business users across multiple customers receiving an "Ushur Certified Professional" certification as a result of my training
- Conducted 30+ unique, white-labeled demos to Ushur's customers demonstrating potential use-cases and handling objections
- Responsible for troubleshooting platform related bugs and communicating product gaps/enhancements to the Product and Engineering teams
- Re-architected multiple legacy workflows for durable medical equipment providers resulting in an over 10% increase in re-order volume

CapTech Consulting

Charlotte, NC / Denver, CO

Senior Consultant / Business Systems Analyst

June 2021 – April 2022

Risk Program Consultant | Strategy and Digital Innovation Group | Top-3 US Bank

- Partnered with the Policy and Regulatory Change Management business unit in remediating a compliance-related corrective action issue by drafting 3 separate line of business procedures
- Supported the remediation of a compliance-related corrective action issue by developing a data privacy procedure for the line of business
- Developed a comprehensive SharePoint intake tool with automated reporting functionality for privacy leaders to track requests by the line of business

Consultant / Business Systems Analyst

September 2019 – December 2020

Production Support Onboarding Workflow Consultant | Customer Account Onboarding Tool | Top-3 US Bank

- Supported the tool's strategy, management, and monitoring, spanning across its workflows, multiple lines of business, the IT service desk, and end users
- Advised end users on 1,000+ inquiries involving three workflows: customer onboarding, customer transfers, and periodic review case management as well as administration functionality
- Served as the primary point of contact for their largest line of business where I was responsible for leading a weekly call communicating tool information and trainings to 150+ users
- Executed monthly production release verification, coordinating the test plan and its execution
- Recognized for representing the company core value of "flexibility" at an account-wide meeting

EDUCATION

University of North Carolina at Chapel Hill
